NCS is responsible for the net on the assigned date, and must coordinate with another NCS if a conflict occurs. Use the net preamble script on the Cherokee ARES web site. **NCS must check the Cherokee ARES web site before beginning the net to obtain the most current roll call list and check-in roster.** NCS will log all check-ins using the form provided on the Cherokee ARES web site. The net starts promptly at 2000 hours, log all check-ins, the start and end time for the net. If the assigned NCS has not started the net by 2003, another NCS should attempt to make contact and then take over the net if needed. NCS is responsible for conducting a training presentation as part of the net. Consider Q&A, solicit feedback from the team. Everyone should be prepared in case you must assume NCS last minute. Send completed net logs to: w1jku@arrl.net, kd4kho@comcast.net, and ko4uqf@yahoo.com.
